

Executive AI & Analytics Luncheon

Transform AI Strategy into Business Results

Join an exclusive gathering of senior technology, data, and business leaders for an interactive executive luncheon focused on how organizations are successfully turning AI, analytics, and trusted data into measurable business value.

This is not a conference or product presentation. It's a curated, peer-to-peer discussion where executives share practical experiences, lessons learned, and real-world strategies in a relaxed networking environment.

Discussion Topics

Explore practical approaches and executive perspectives on:

- Scaling AI initiatives across the enterprise
- Building trusted, data-driven decision-making
- Modernizing analytics platforms
- Accelerating business outcomes with AI
- Data modernization strategies
- Driving faster, smarter operational decisions
- Lessons learned from enterprise AI adoption
- Peer insights into digital transformation initiatives

Event Details

 **Date:** Wednesday, September 16, 2026

 **Time:** 11:45 AM – 1:10 PM

 **Venue:** Black+Blue Toronto

130 King St W, Toronto, ON M5X 2A2,
Canada

 **Format:** Executive Networking Lunch & Interactive Roundtable Discussion

Who Should Attend?

This executive luncheon is designed for:

- Chief Information Officers (CIOs)
- Chief Technology Officers (CTOs)
- Chief Data Officers (CDOs)
- VP/Directors of Data & Analytics
- AI & Machine Learning Leaders
- Digital Transformation Executives
- Enterprise Architecture Leaders
- Business Technology Decision Makers

What Makes This Event Different?

- ✓ Executive-level networking with industry peers
- ✓ Interactive discussion, not presentations
- ✓ No product demonstrations
- ✓ No sales pitches
- ✓ Practical conversations focused on real business outcomes
- ✓ Small, invitation-only audience for meaningful engagement

Why Attend?

Today's organizations are moving beyond AI experimentation and focusing on measurable business impact. Connect with fellow executives who are navigating similar challenges, exchanging proven ideas, and exploring practical strategies for enterprise AI adoption.
