

An AI conversation over lunch. No slides.

A small, peer-to-peer table for people working on AI inside real organizations — to hear what other industries in this city are actually building, what broke, and what turned out to be worth the money.

arrive, order, introductions	open discussion	trade contacts, go
------------------------------	-----------------	--------------------

11:45 a.m.

1:00 p.m.

Seventy-five minutes, start to finish. Back at your desk by 1:15.

What the table talks about

- What's genuinely in production versus what's still a pilot with a nice demo.
- Where projects stalled — data access, security review, procurement, or people simply not using the thing.
- How other sectors got governance and legal to yes.
- What teams stopped doing after the first year, and what they'd spend on again.

No presentations. Nobody opens a laptop. There is no deck, no demo, no agenda beyond the questions the table brings.

No obligation. Lunch is covered, you owe nothing, and nobody calls you next week unless you ask them to.

Who's at the table

- Ten to twelve seats, deliberately mixed so you're not comparing notes with your own competitors.
- | | |
|----------------------------|-----|
| Financial services | 1-2 |
| Healthcare & life sciences | 1-2 |
| Manufacturing | 1-2 |
| Retail & ecommerce | 1-2 |
| Logistics & supply chain | 1-2 |
| Public sector | 1-2 |
| Energy & utilities | 1-2 |
- Most guests lead a function — technology, operations, data, or a business line — and are accountable for an AI decision this year.

Date	Time	Where	Cost
Wednesday September 16, 2026	11:45 a.m. – 1:00 p.m. Eastern	Black+Blue Toronto 130 King St W, Toronto	None. Lunch is on Cresco International.

Seats are limited to keep one conversation going instead of six. Let us know by Monday, September 14 so we can hold the table.
